## BORIS STAMPFLI

Born in Switzerland and now based in Tuscany, Boris Stampfli is a multidisciplinary artist whose practice spans sculpture, painting, and installation. Working with bronze, resin, and wood, he combines artisanal precision with a poetic, contemporary language. His figures—part human, part vegetal—inhabit a realm where nature and identity intertwine, evoking dreamlike, symbolic landscapes in which the subconscious comes to the surface.

Stampfli's research centers on the concept of roots, both material and metaphorical. His works explore how the human body is anchored to the natural world, revealing hybrid forms, organic mutations, and suspended narratives that exist between dream and memory. This vision was at the heart of "Roots" (Fonderia Artistica Del Giudice, Greve in Chianti, 2023),

a solo exhibition inviting viewers to reconnect with their inner landscape. His long-standing collaboration with the Fonderia Artistica Del Giudice reinforces the dialogue between craftsmanship and contemporary narrative in his work.

Among his most emblematic public sculptures is "Man in the Mirror," first presented in the 54th edition of "Forme nel Verde – Fondere il Tempo" (San Quirico d'Orcia, 2025) and now installed in the historic village of Montefioralle. This symbolic bronze work depicts a figure holding a frame, a gesture that reflects identity back into the environment and invites viewers to consider their place within it.

Stampfli brings an unusually broad technical vocabulary to his work, shaped by years of experience in

cinematic makeup, special effects, mask-making, and scenography. This interdisciplinary background lends his sculptures an almost performative dimension, transforming each piece into an actor, a presence, a witness.

Actively engaged in the Tuscan artistic community, Stampfli's work resonates with both local audiences and international collectors, bridging tradition, craftsmanship, and contemporary artistic dialogue. In recognition of his contributions, in 2025 he was awarded the title of Honorary Citizen of the Municipality of Greve in Chianti "for intertwining artistic languages and cultural identities in the promotion, enhancement, and dissemination of contemporary art, thereby enriching the Chianti region."
